The Cutlerville Chamber of Commerce would like to thank the above companies for their sponsorship and support of the 34th Annual Cutlerville Community Days event. We are thrilled that this is truly a blending of business and community.

Thanks Amerikam... Amerikam Inc. is a manufacturer with a long history in the community. Established in 1934, Amerikam designs, develops and manufactures valves, precision components and products for flow control, as well as the aerospace and medical industries. Located at 1337 Judd SW, the company works on a "build to design" basis with its customers and in partnership with them to design, prototype and manufacture custom designed products using ceramic valve technology and skilled precision machining.

A great number of Amerikam's 75 employees have been residents of other countries. This diverse and highly creative work force is one of Amerikam's greatest strengths. The company's trademark slogan is "Imagine the Possibilities", and this refers not only to their products, but most importantly it refers to the people. A strong sense of community is key to the company's success, and this is incorporated in Amerikam's business philosophy...**the belief that part of its purpose is to give back to the community.**

Amerikam employees give freely of their time in numerous philanthropic programs, and the Brian Diemer Amerikam 5K Race is a perfect case in point. Amerikam has been the Title Sponsor of this Race since its inception 17 years ago, and has grown with the Race by sending 40 runners and 100 volunteers to the Race this year. This type of active involvement is an important contribution to the community. Amerikam believes the sense of purpose it invokes in the people of Amerikam and the vigor and excitement it contributes to the positive morale and group dynamic of the company provides a natural positive affect which keeps Amerikam well rounded.
